

1. Hero Section

Current Issues

- Too much empty green space on the right.
- No visual anchor.
- Doesn't communicate what the platform actually looks like.
- Hero feels static.

Suggested Changes

Add Product Preview

Instead of an empty right side:

Show

- dashboard mockup
- floating cards
- inventory module
- order management screen
- analytics widgets

similar to

1. Stripe
2. Vercel
3. Linear
4. Notion AI

This alone increases perceived quality dramatically.

Use Gradient Background

Instead of flat green.

#062B1D

Try linear-gradient(180deg, #082C20, #031A13)

Then add - very subtle, radial gradient, behind dashboard preview.

This creates depth.

Reduce Hero Width

Current heading spans too wide.

Target

max width
680-720px

More readable.

2. Typography

Current font pairing is good.

Looks like Canela / Cormorant style heading

Inter

Keep that.

Heading

Current Feels slightly thin.

Use Font Weight - 500 or 600

Increase Line height - 1.05

Reduce letter spacing - 2%

Luxury typography likes tighter spacing.

Body

Current 20 px

Feels large.

Recommended 18 px, weight 400, line-height 170%

More refined.

Navigation

Current Feels default.

Make 14 px, 500 weight

Uppercase NOT needed

Letter spacing - 0

3. Color Palette

Current- Green + Gold

Green

Current green feels saturated.

Use deeper emerald.

Example - Background - #071E16

Surface - #0C261C

Border - #1B3A2C

Gold

Current gold is slightly yellow.

Luxury brands usually use muted champagne gold.

#C8A24F or #B8903C

instead of bright mustard

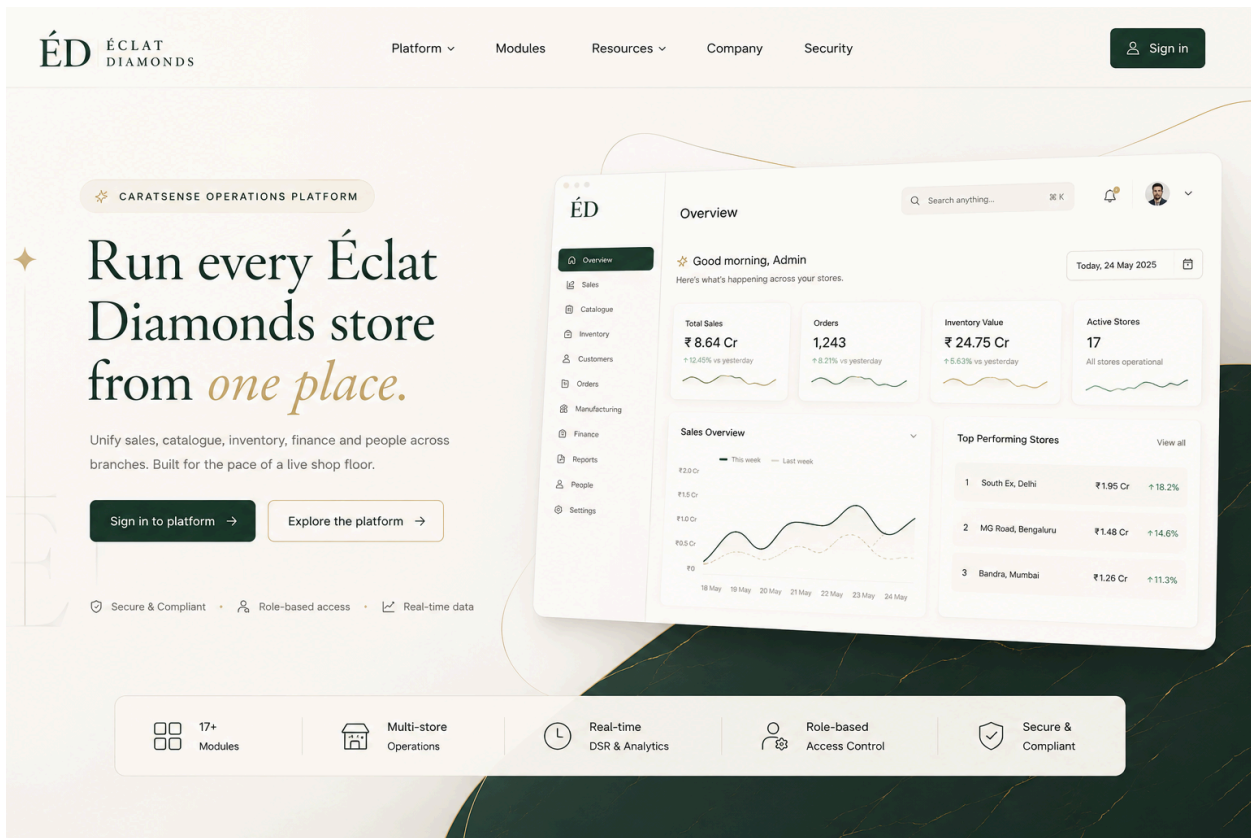

White

Instead of pure white

Use #F6F3ED Feels softer.

Secondary Text

Use rgba(246,243,237,.72)
